Two to Five Points Above Last Wook's Finals.

New York, Nov. 10 .- The stock market opened weak today but substantial recoveries were made in the first hour. Such stocks as Industrial Alcohol, Crucible steel, General Electric and Trans-Continental oil ran counter to the general trend, soon showing actual gains of 2 to 5 points. Rallies among equipments and related shares carried other issues over last week's final prices and induced heavy covering of short contracts. Irregular reactions occurred again prior to the opening of the money market. The initial rate for call loans was 12 per cent despite last Saturday's favorable bank state-

Influenced mainly by later developments over the week-end, selling of securities in very large volume was resumed at the opening of to-day's stock market session. Industrials of the several groups which figured conspicuously in the recent advance were under especial pres-sure. Reactions of 2 to almost 10 pings also were heavy and invest-ment rails finally yielded as selling
